

well. Throughout my 2 day horse ride we were greeted by friendly villagers all along the way, we even stopped for milk tea at one of the houses - something that would never happen in England! I enjoyed gallops by the riverside and the ~~sites and~~ sights and sounds of the jungle - this included sighting a crocodile floating down the river just meters from us!! I also had the chance to ride an elephant further into the jungle - on this trip we managed to spot wild rhino, deer, wild boar and beautiful birds.

The whole horse ~~safari~~ safari was perfect in every sense of the word! From the horse I rode to Michele's company to the wild animals I saw. When I returned I was so happy and at peace 😊 But that wasn't the end - I was treated to ~~##~~ a Thai massage which was bliss!

This morning as I prepare to leave I am so sad... to me this has been paradise! My time here has been so well organised and I feel so privileged to have experienced Nirvana's horse resort. I love it here ❤️

Lots and Lots of Love
